

4th Grade Core Tour Student Worksheet Manatees

Are manatees **primary** or **secondary** consumers? How can you tell?

Name two characteristics that make a manatee a mammal.

- 1.
- 2.

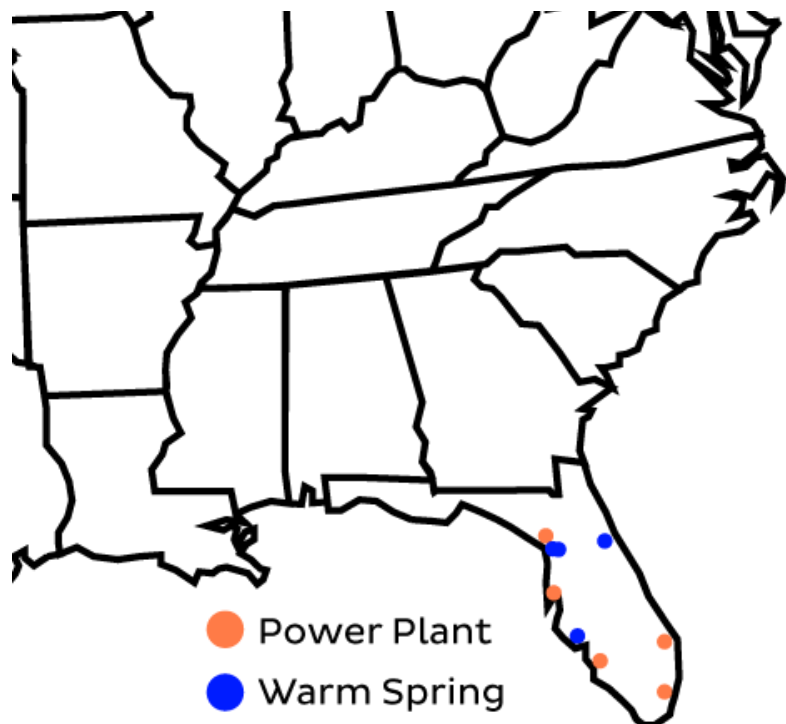

On the elephant, circle the **adaptation** that is comparable to a manatee's **prehensile lips**.

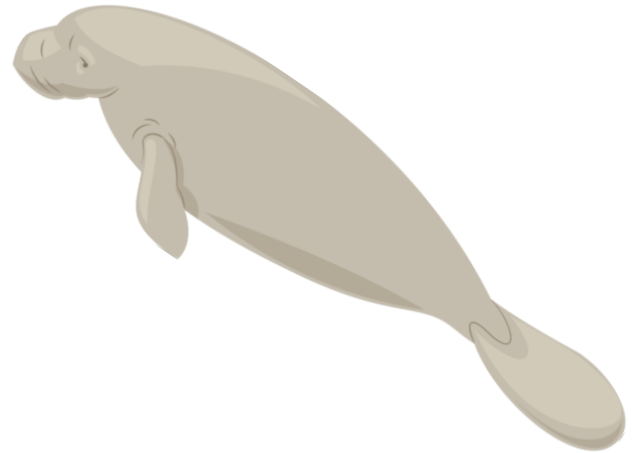

On the map to the right, put a box around where you expect to find manatees in the winter and circle where you might find manatees the rest of the year.

What are two reasons animals like manatees and birds **migrate**?

- 1.
- 2.

What **adaptations** do these animals have that allow them to travel long distances? In the box below, draw a bird **adaptation** and on the picture, circle a manatee **adaptation**.

Name one way that manatees are beneficial to the ecosystem.

How can we share resources responsibly with manatees? Describe one way.
