

Matter Matters:

Look around your house and yard. When you see an example of a state of matter, write or draw it in the correct box.

To win, complete two columns across or two columns up and down.

HINT: Examples of natural plasmas include the sun & stars, inter-stellar gas clouds and Aurora Borealis (Northern Lights)

Examples of human - made plasmas include fluorescent lights, neon signs and some television sets!

Examples of non-matter include light, heat and sound.
